	<u>Comment and evaluation of English teachers:</u> I appreciate what you have shown in my class such as your attitude, your effort and your motivation. You are a helpful and active participant because you always take part positively in team work. You worked hard and felt excited when you presented in front of others. You are able to study English well if you really put your best effort. I give you some suggestions: 1. Writing down what you learn everyday (new words, grammar, skills). 2. Trying your best to concentrate on your English weakness (pronunciation, speaking, listening). 3. Doing more exercises.						

Soft skills	Learning to learn	60	2	7.6	8.7	6.2	8.0
	Professional Life Training 1	30	2	7.9	8.9	7.8	8.5
	<u>Comment and evaluation of PLT teacher:</u> You are always a humorous, supportive and active member in my class, and I am happy to see you in my class in every lesson. For Learning to Learn, I hope that you will practice more with searching and researching information: practice using tools for quick searching, apply more reading skills when searching (skimming and scanning); besides, be careful when taking notes also. Take your time and improve your skills every day. For PLT1, somehow you were quite competitive during the Q&A part for presentation. It could be good or bad depending on the situation, but I hope you can stay calm. For email writing, be more careful, since you make some unacceptable with spelling. I hope that in the next semesters, you put more effort to make bigger progress. You can do it, stay strong!!						
	Education training 1	60	2	8.4	8.8	6.7	7.9
	<u>Comment and evaluation of Educators:</u> You are a very nice student with great capacity. Working more actively with others will help you develop more.

	<u>Comment and evaluation of English teachers:</u> Hung is an energetic and outspoken student. He has a serious attitude towards his study and works hard to improve himself. Overall, Listening seems to be the one which he needs to put the most effort into to in among the 4 English skills. We suggest that during summer vacation he should find some listening materials to practice. This is the time he could practice English with no pressure. The material could be various: films, cartoons, game shows, etc. Try harder since we know you can go further!
